

THE GLOBAFONE QUICK START SYSTEM

The GlobaFone Quick Start System is uniquely designed for disaster response or crisis management. It is ideal for field operations where a coordinator and several response team members are required to manage the incident. The Quick Start System provides for maximum flexibility, with a fixed-site base station and five mobile units; two with vehicle kits and three completely portable. Field personnel have the freedom to stay with a vehicle or go completely mobile into the targeted area and still remain connected, no matter the circumstances. **Value priced at just \$13,999.00!**

The Quick Start System Includes: 1 Globalstar fixed-site satellite phone, 5 mobile satellite phones, 5 spare batteries, 2 transportable car kits, 3 car chargers for 3 of the portable phones, 5 leather carrying cases for the phones, User's Guides, 24 hour support and over 10,000 minutes of pooled airtime that is good for 1 year.

The Quick Start System includes 5 Globalstar portable phones
